If you look on Autotrader for a [used BMW dealer London](#) there are lots listed. I have opted out of my company car scheme at work, which is a little daunting as I am now responsible for tax, car insurance, servicing and MOT. I have to return my car to Lookers car leading next month so need to sort something quickly. I would really like a used 5 series and have found one at Big Motoring World who sell used BMW in Kent. They have a huge selection of this brand so I am sure they will source the right car if this one does not suit my requirements.
